Strong Matches — Budget Assessment

Budget range: PKR 200,000 – 250,000 / month. All 15 shortlisted candidates are within budget. One candidate (Syeda Farzana Ali Shah, score 83.8) expects PKR 300,000 — over budget by PKR 50,000. Note: Naveen Shariff (PKR 220,000) was previously flagged as over-budget in error — she is within range.

OB1: Syeda Farzana Ali Shah	Score: 83.8 | Tier: Tier B

Why Others Did Not Make the Cut

No M&E; / Field Research Background (60+ candidates)

Over 60 candidates had backgrounds entirely unrelated to M&E;, field research, or education program implementation. Common profiles: teaching, HR, marketing, corporate sales, finance. These do not meet the JD's minimum requirement of 1–3 years in field research or M&E.; All discarded.

Quick-Apply Placeholder Profiles (20+ candidates)

Over 20 applications had generic placeholder names (e.g., 'usman Applicant', 'saba Applicant') with no resume attached. Without a CV, it is impossible to assess qualifications. All discarded.

Over Budget (2 candidates)

Saira Akram (PKR 400,000) and Syeda Farzana Ali Shah (PKR 300,000) exceed the PKR 250K ceiling. Syeda Farzana is flagged separately as she has strong field credentials worth discussing with the hiring manager.

Humanitarian Sector Only — No Education Focus (15+ candidates)

Several candidates had strong international NGO backgrounds (UNHCR, WFP, humanitarian relief) but no education sector or government school experience. The JD specifically requires government school coordination and education program M&E; — sector alignment is a must.

Researchers Without Field Coordination Experience (25+ candidates)

A significant group had academic research or data analysis backgrounds (PhDs, research assistants) but lacked evidence of operational field coordination — managing enumerators, conducting spot-checks, liaising with survey firms, or tracking daily coverage. Research alone does not meet the JD.

Recommended Next Steps

1. Immediately shortlist top 5 (Asif Khan, Pariyal Fazal Shah, Zubair Hussain, Fatima Razzaq, Jawad Khan) for 30-min screening calls.
2. For HabibunNabi (Rank 6): verify 17-yr experience and confirm salary (PKR 80K seems unusually low for this profile — may be a data entry error).
3. For Asif Khan (Rank 1): clarify long-term commitment at PKR 250K ceiling; confirm government school coordination experience.
4. For Jawad Khan (Rank 5): confirm field coordination role interest vs. research/academic preference.
5. Interview question to ask all: 'Walk me through a time you caught a data quality issue in the field and corrected it before it reached the analysis stage.'
6. Confirm Islamabad/Rawalpindi residency or relocation readiness for all shortlisted candidates.
7. Negotiate salary for Syeda Farzana Ali Shah (PKR 300K ask) only if top 5 don't meet expectations — strong profile worth revisiting.
