Why Others Did Not Make the Cut

Keyword Scanner Overcounting — Corrected by Human Judgement (5 candidates)

Five candidates scored 80–94 by the keyword scanner but fell to No-Hire on human review: Muhammad Afzaal (86.2 → 45), Midhat Fatima (86.2 → 49), Sadia Siddique (81.2 → 31), Muhammad Qasi (85 → 50), Syeda Farzana Ali Shah (83.8 → 39). The scanner counted tool names (Kobo, ODK, SPSS) in skills sections as evidence of field coordination — human review found these were either unlisted without practice or from entirely unrelated domains (health, protection, HR).

No M&E; / Field Research Background (60+ candidates)

Over 60 candidates had backgrounds entirely unrelated to M&E;, field research, or education program implementation. Common profiles: teaching, HR, marketing, corporate sales, finance. All discarded.

Quick-Apply Placeholder Profiles (20+ candidates)

Over 20 applications had generic placeholder names ('Applicant' last name, no resume attached). Cannot assess — all discarded.

Over Budget (1 candidate)

Amina Batool (PKR 300–310K) exceeds the PKR 250K ceiling. Flagged separately — salary negotiation recommended given she is the #2 ranked candidate overall.

Humanitarian/Health Sector Only — No Education Focus (15+ candidates)

Several candidates had strong NGO backgrounds (UNHCR, WFP, WASH, health) but no education sector or government school experience. The JD specifically requires government school coordination and education M&E.;

Researchers Without Field Coordination Evidence (25+ candidates)

Academic research or data analysis backgrounds without operational field coordination — no enumerator management, spot-checks, survey firm liaison, or daily coverage tracking. Research alone does not meet the JD.

Recommended Next Steps

1. Immediately shortlist top 5 (Asif Khan, Scheherazade Noor, Fatima Mughal, Faryal Afridi + Amina Batool if salary can be negotiated) for 30-min screening calls.
2. For Amina Batool (Rank 2, score 95): Explore salary negotiation — PKR 300–310K ask is PKR 50–60K over ceiling. This is the strongest education field coordination PM in the pool. EdTech Hub + TFP + PIE AI assessment. Negotiate before defaulting.
3. For HabibunNabi (Rank 7): Verify 17-yr experience and confirm salary — PKR 80K is unusually low for this profile and may be a data entry error.
4. Three Teach For Pakistan alumni shortlisted (Amina Batool, Asad Farooq, Usman Ahmed Khan). Ask all three: 'How would you transition from school-facing support to back-office field data governance?'
5. Interview question for all candidates: 'Walk me through a time you caught a data quality issue in the field and corrected it before it reached the analysis stage.'
6. Confirm Islamabad/Rawalpindi residency or relocation readiness for all shortlisted candidates.
7. Note: Naveen Shariff (Rank 20, TCF intern) is Karachi-based — relocation discussion needed if considered.
