Taleemabad - Talent Acquisition Report

Soul Architect / Conversational UX Designer | Job #26 | 10 March 2026

42	4	0	TBD
CVs Screened	Shortlisted	Out of Budget	Budget

1. Deep Comparative Analysis

#	Candidate	Score	Tier	Budget	Exp. Salary	Experience	Background / Current Role	Key Strength / Note	Verdict
1	**Danyal Haroon**	**73**	Tier B	TBD	Not mentioned	Total: ~4 yrs Relevant: ~2 yrs (UX/AI design + academic human-AI research)	UX Design Specialist — AIO App Inc. (AI restaurant platform, Silicon Valley); currently MA Digital Media — Univ. of Manchester	Best overall JD match in pool. LUMS CS + MA dissertation on AI chatbot interfaces. Daily AI tool user (ChatGPT, Claude, Gemini). Qualitative research: 18-city HBL focus groups. Strong writer. Understands human-AI interaction academically and practically. Gap: behavioral science is adjacent (MA coursework), not primary training — not a trained psychologist or anthropologist. Only candidate who hits 4/5 JD must-haves.	**RECOMMEND**
2	**Aisha Bashir**	**65**	Tier C	TBD	Not mentioned	Total: ~10 yrs Relevant: ~6 yrs (Taleemabad educational content creation + team lead)	Animator & Illustrator — Taleemabad (Apr 2024–Dec 2025); MPhil Art & Design, Indus Valley	10 years creating educational content at Taleemabad — script writing, lesson planning, supervising 40+ Urdu ed-videos and 86+ books. Deep practical knowledge of teacher psychology and educational media. Strong writer and creative director. MPhil Art & Design. Gap: no AI tool fluency evidenced; no formal behavioral science or qualitative research. Interview to assess AI readiness and research thinking — Taleemabad context is a real asset.	**CONSIDER**
3	**Muhammad Taimoor**	**62**	Tier C	TBD	Not mentioned	Total: ~4 yrs Relevant: ~2 yrs (Conversational UX, HCI-focused UX design)	UX Designer — Rofoof, Saudi Arabia (Oct 2023–Apr 2025, Remote); MSc Human-Centered Systems & Digital Products, Univ. of Gujrat	Conversational UX Designer profile — explicitly lists Conversational UX, Prompt-Based UX Exploration, and AI-Assisted Design. MSc in Human-Centered Systems. 4 years UX across SaaS, marketplace, telehealth, and a language translation app (cross-cultural scope). Fits 'Conversational UX Designer' and 'HCI' profiles directly. Gap: no behavioral science training; domain is e-commerce/SaaS rather than ed-tech.	**CONSIDER**
4	**Muhammad Ammar Khan**	**55**	Tier C	TBD	Not mentioned	Total: ~1 yr Relevant: ~1 yr (AI-assisted design, behavior-driven UX)	UX/AI Design — Freelance (SZABIST CS graduate 2025, Rawalpindi)	Profile states: 'focused on how people emotionally and culturally interact with digital systems; human-AI relationships, behavior-driven design, culturally responsive experiences.' Daily AI tool user (ChatGPT, Gemini, Runway, Claude). Analyses how tone, wording, and structure change user perception — behavioral design language. JD says 'we don't care about the degree' — profile intent + AI fluency are genuine. Fits 'AI Interaction Designer' and 'Behavioral Designer' profiles. Gap: fresh grad, limited formal experience.	**CONSIDER**
5	**Hulalah Khan**	**48**	No-Hire	TBD	Not mentioned	Total: ~2.5 yrs Relevant: ~2.5 yrs (counselling, teaching, academic research)	College Counsellor — The Orange Tree Foundation (Nov 2023–Present)	Strong behavioral science foundation (LUMS Sociology-Anthropology + Psychology minor). Good qualitative research training and writing ability. Missing the critical JD must-have: AI tool fluency. No evidence of daily AI usage, prompt writing, or conversational design. Skills (SPSS, R-Studio) are traditional research tools. Early-career profile — the implementation layer is absent.	**NO-HIRE**
6	**Asad Nawaz**	**42**	No-Hire	TBD	Not mentioned	Total: ~5 yrs Relevant: 0 (product design; no JD must-haves met)	Sr. Product Designer — Addo AI, San Francisco (Jan 2025–Present, Remote)	Impressive product design portfolio (Vyro.ai 100M+ downloads, Qlu.ai $5M deal). This role is NOT primarily a product design role — it requires behavioral science, ethnographic research, philosophical thinking, and persuasive writing. Electrical Engineering + fintech domain. Does not meet core JD requirements.	**NO-HIRE**

#	Candidate	Score	Tier	Budget	Exp. Salary	Experience	Background / Current Role	Key Strength / Note	Verdict
7	**Rimsha Faisal**	**52**	No-Hire	TBD	Not mentioned	Total: ~1 yr Relevant: <1 yr (UI/UX)	Product Designer — AIO App Inc. (Dec 2024–Present, Islamabad)	Junior UI/UX designer with AI interface work. No behavioral science, conversational design depth, or content writing specialty.	**NO-HIRE**
8	**Hamza Ahmed**	**47**	No-Hire	TBD	Not mentioned	Total: ~3 yrs Relevant: 0	Product Designer — GrowthRune, Florida (Nov 2025–Present, Remote)	Experienced product designer but fintech/SaaS. No behavioral science, conversational AI, or content writing.	**NO-HIRE**
9	**Arslan Saleem**	**45**	No-Hire	TBD	Not mentioned	Total: — Relevant: 0	Lead UX/UI Designer (Lahore)	Solid UX/UI portfolio. No behavioral science, conversational design, or AI writing.	**NO-HIRE**
10	**Faizan Ullah**	**45**	No-Hire	TBD	Not mentioned	Total: ~3 yrs Relevant: 0	UI/UX Designer — UET Peshawar (currently Riyadh, visit visa)	3+ yrs UI/UX. No behavioral science or conversational design. Based abroad.	**NO-HIRE**
11	**Ghulam Qadir**	**43**	No-Hire	TBD	Not mentioned	Total: — Relevant: 0	Staff UI/UX Designer (Karachi)	UI/UX background. No behavioral science or conversational design.	**NO-HIRE**
12	**Muhammad Jaffer**	**42**	No-Hire	TBD	Not mentioned	Total: — Relevant: 0	UI/UX Designer (Rawalpindi)	UI/UX designer. No conversational design, behavioral science, or AI writing.	**NO-HIRE**
13	**Aaqib Khan**	**40**	No-Hire	TBD	Not mentioned	Total: — Relevant: 0	UI/UX Designer (Islamabad)	UI/UX profile. No behavioral science, conversational AI, or content writing.	**NO-HIRE**
14	**Nain Tara**	**38**	No-Hire	TBD	Not mentioned	Total: — Relevant: 0	UX Designer / Researcher (Islamabad)	UX researcher background. No behavioral science framework or conversational design.	**NO-HIRE**
15	**Hassan Bin Tariq**	**38**	No-Hire	TBD	Not mentioned	Total: — Relevant: 0	Product / UX Designer (Rawalpindi)	Product/UX design focus. No behavioral science or conversational AI depth.	**NO-HIRE**
16	**Muhammad Taufeeq**	**37**	No-Hire	TBD	Not mentioned	Total: — Relevant: 0	UI/UX Designer (Rawalpindi)	Standard UI/UX profile. No JD fit on behavioral science or conversational design.	**NO-HIRE**
17	**Talal Hassan Khan**	**36**	No-Hire	TBD	Not mentioned	Total: — Relevant: 0	UI Designer (Islamabad)	Visual UI focus. No behavioral science, conversational design, or AI writing.	**NO-HIRE**
18	**Ahmad Hamdan Akram**	**35**	No-Hire	TBD	Not mentioned	Total: — Relevant: 0	UX Designer (Islamabad)	UX design background. No behavioral science or conversational AI.	**NO-HIRE**
19	**Manahil Ahmed**	**35**	No-Hire	TBD	Not mentioned	Total: — Relevant: 0	UX Designer (Islamabad)	UI/UX profile. No behavioral science, conversational design, or AI fluency.	**NO-HIRE**
20	**Asma Butt**	**35**	No-Hire	TBD	Not mentioned	Total: — Relevant: 0	UX Researcher (Lahore)	UX research focus. No behavioral science framework, conversational AI, or content writing.	**NO-HIRE**
21	**Hamza Jamal**	**33**	No-Hire	TBD	Not mentioned	Total: — Relevant: 0	UI/UX Designer (Lahore)	UI/UX designer. No JD alignment on behavioral science or conversational design.	**NO-HIRE**
22	**Zehra Rashid**	**32**	No-Hire	TBD	Not mentioned	Total: — Relevant: 0	UX / Content Designer (Islamabad)	Some content design exposure but no behavioral science depth or AI fluency.	**NO-HIRE**
23	**Zikra Fiaz**	**30**	No-Hire	TBD	Not mentioned	Total: — Relevant: 0	UX Designer (Rawalpindi)	Junior UX profile. No behavioral science, conversational design, or AI tools.	**NO-HIRE**
24	**Muhammad Abdullah Safdar**	**30**	No-Hire	TBD	Not mentioned	Total: — Relevant: 0	Graphic / UI Designer (Rawalpindi)	Graphic/UI focus. No relevance to behavioral science or conversational UX.	**NO-HIRE**
25	**Ameer Hamza Tariq**	**28**	No-Hire	TBD	Not mentioned	Total: — Relevant: 0	UI Designer (Islamabad)	Junior designer profile. Does not meet JD requirements.	**NO-HIRE**
26	**Zia Ullah**	**28**	No-Hire	TBD	Not mentioned	Total: — Relevant: 0	UI/UX Designer (Islamabad)	Standard UI/UX profile. No behavioral science or conversational design match.	**NO-HIRE**
27	**Sanaullah Mukhtar**	**28**	No-Hire	TBD	Not mentioned	Total: — Relevant: 0	UX Designer (Faisalabad)	Brief UX profile. No behavioral science or conversational AI match.	**NO-HIRE**

#	Candidate	Score	Tier	Budget	Exp. Salary	Experience	Background / Current Role	Key Strength / Note	Verdict
28	**Muhammad Ali**	**28**	No-Hire	TBD	Not mentioned	Total: — Relevant: 0	Designer (Rawalpindi)	Designer profile. No JD fit on behavioral science or conversational design.	**NO-HIRE**
29	**Hadia Sajjad**	**27**	No-Hire	TBD	Not mentioned	Total: — Relevant: 0	UX Designer (Islamabad)	Short UX profile. No behavioral science, conversational AI, or content writing.	**NO-HIRE**
30	**Muhammad Wasi Haider**	**25**	No-Hire	TBD	Not mentioned	Total: — Relevant: 0	UI Designer (Rawalpindi)	UI designer. Does not meet JD requirements.	**NO-HIRE**
31	**UIxFly (Moheed)**	**25**	No-Hire	TBD	Not mentioned	Total: — Relevant: 0	Freelance UI Designer (Islamabad)	Freelance UI design. No behavioral science or conversational UX.	**NO-HIRE**

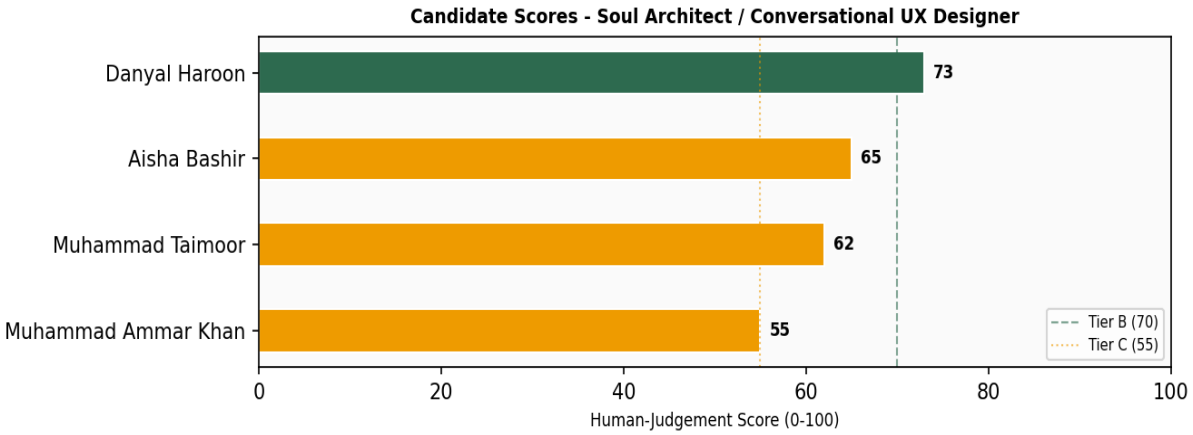
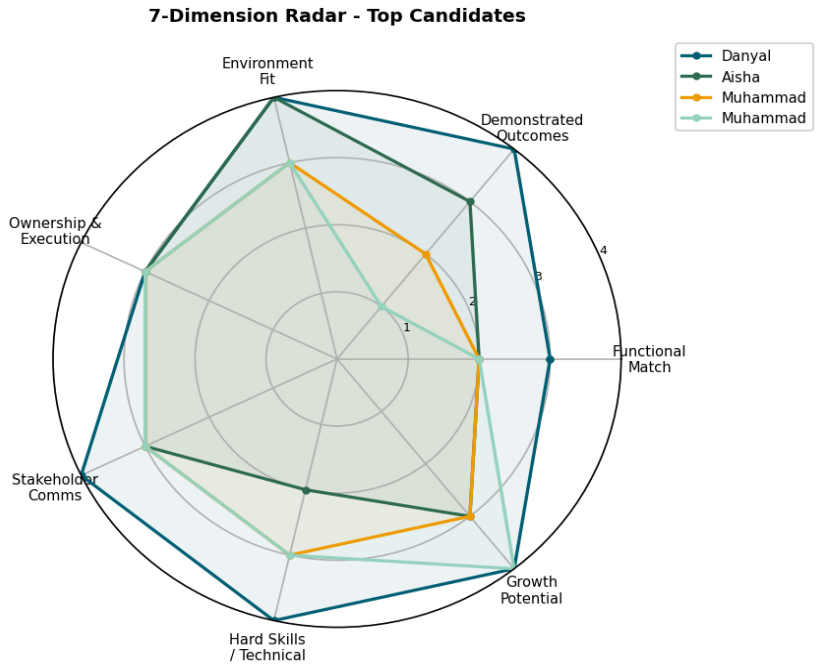
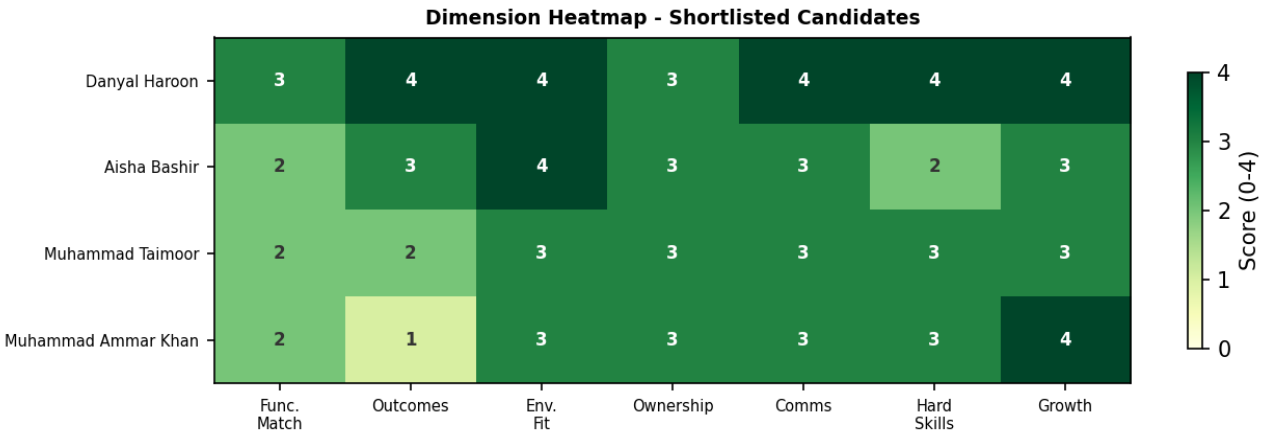
2. Visual Analytics





3. Dimension Heatmap - Shortlisted Candidates



Dimension	Weight	What it measures
Functional Match	25%	Behavioral science + conversational UX + content writing alignment to JD
Demonstrated Outcomes	20%	Concrete evidence: products shipped, users impacted, writing published
Environment Fit	15%	Education/EdTech sector fit; Islamabad location; collaborative profile
Ownership & Execution	15%	Self-directed work; drives projects end-to-end independently
Stakeholder & Comms	10%	Translates behavioral insights into clear, engaging content
Hard Skills / Technical	10%	AI tools (ChatGPT, Claude, etc.), UX tools (Figma), research methods
Growth & Leadership	5%	Learning trajectory, curiosity, potential to grow the function

4. Why Others Didn't Make the Cut

This is a rare hybrid role — behavioral scientist + AI practitioner + persuasive writer. The JD's five must-haves (human sciences training, qualitative research, daily AI tool fluency, strong writing, philosophical depth) form a profile that barely exists in Pakistan's current talent market. The pool of 42 was overwhelmingly UI/UX designers who did not match the core requirements.

Issue	Candidates affected
UI/UX visual designers — wrong specialist profile for a human-sciences role	~30 candidates (ranks 7-39)
AI tool fluency absent — listed as skill but not evidenced in actual work	~28 candidates
No behavioral science, anthropology, psychology, or sociolinguistics background	~35 candidates
No qualitative research or ethnographic work experience	~35 candidates
No evidence of persuasive or manifesto-style writing	~38 candidates
Incomplete applications — no CV submitted	3 candidates (ranks 40-42)

Pool verdict: Weak pool for this specialist role. 4 candidates merit interviews: Danyal Haroon (best overall JD match -- UX + AI tools + academic human-AI research, score 73), Aisha Bashir (deep Taleemabad institutional knowledge + writing + education context, score 65 -- assess AI readiness), Muhammad Taimoor (Conversational UX Designer profile -- MSc Human-Centered Systems, explicitly lists Conversational UX and Prompt-Based UX, score 62), and Muhammad Ammar Khan (AI Interaction Designer profile -- behavior-driven design, human-AI relationships, daily AI tools, score 55 -- fresh grad, limited experience). If none convert, re-post with clearer signals -- 'behavioral scientist,' 'AI behavior designer,' or 'human-AI researcher' in the title will attract a more relevant pool than 'Conversational UX Designer,' which pulls visual designers.

5. Recommended Next Steps

1. Interview Danyal Haroon (rank 1) — take-home task: ask him to write a 1-page 'soul note' defining how Rumi should respond to a teacher who says 'I feel like giving up.' Evaluate: depth of behavioral thinking, writing quality, ethical nuance.

2. Interview Aisha Bashir (rank 2) — assess AI tool readiness and research thinking. Her Taleemabad context and writing are assets; confirm she can operate with AI tools and take an independent analytical position.

3. Interview Muhammad Taimoor (rank 3) — confirm that Conversational UX and HCI skills go beyond skill-section listings into actual practice. Ask for examples of conversation design work and assess behavioral thinking depth.

4. Interview Muhammad Ammar Khan (rank 4) — fresh grad but genuine AI fluency and behavioral design intent. Use the same take-home task to assess writing quality and depth of thinking on human-AI relationships.

5. Set the salary budget before extending any offer — budget is currently TBD.

6. If none convert, re-post with 'AI Behavior Designer' or 'Human-AI Researcher' in the title. Explicitly name behavioral science, anthropology, or psychology in requirements to stop attracting visual UI/UX designers.
